

# Paper Roll Reindeer

## What You Need:

- 🧺 Two toilet paper rolls
- 🧺 Craft paper or paint
- 🧺 Felt fabric for the ears (this is optional; you can also use paper)
- 🧺 Branches for the antlers (or paper antlers)
- 🧺 Glue (or hot glue)
- 🧺 Scissor

## Optional craft supplies:

- 🧺 Pine tree branches or flowers
- 🧺 Beads to decorate the branches, or you can use pom-poms

## How To:

1. Take two paper rolls and cut one of them in half. Take your half paper roll and cut one side open to connect both paper rolls (image 1)
2. From the leftover half of your paper roll, we will create Rudolph's face (image 2)
3. You can leave your paper roll in the color it is, cover your paper roll with brown craft paper, or paint your paper roll Rudolph brown.
4. Glue the paper rolls together and attach the nose (image 2)
5. Glue two small branches on the inside (left and right) of your TP-roll (image 3). Use hot glue to make sure the branches stuck well.
6. Add some details, like some white spots on the deer, a little piece of yarn as a tail, and a little pom-pom for the nose, and draw on eyes or use craft eyes
7. Cut two ears from felt fabric. If you don't have felt, you can use regular paper.
8. Add a little branch from your Christmas tree. Glue some beads on top of the branches as pretend Christmas balls. But you can also go outside and look for flowers or green branches.
