

Homemade Squirrel Food

What You will Need:

1/2 cup peanut butter

1/4 cup of chopped nuts

1/4 cup of pumpkin seeds (if you don't have you can do 1/2 cup of simply chopped nuts)

1/3 cup plain rolled oats (not the pre-sweetened type)

2 x tsp of flour (to hold it all together)

2 x tablespoons of water (add a bit at a time till roll-able consistency)

Method:

Preheat oven to 180 degrees

1. Mix all ingredients and then roll into 1-inch sized balls in your hand.
2. Place on a foil lined tray into the oven for 3 hours (this makes it so they become manageable and harden)
3. Leave them out on the counter overnight, then simply place in your squirrel feeder or somewhere you know he will see it. This will also look attractive to larger birds too if you love to feed all backyard critters. But squirrels love these treats.
